RULES AND REGULATIONS

FOR THE

Machine and Press Department

OF THE

Glass Bottle Blowers' Association

For the Blast of 1911-1912.

SECTION 1. We shall work six days per week on day turn, and five nights per week on night turn, making an average of five and one-half days per week.

When working three shifts, work shall begin not earlier than 7 A. M. Monday. Actual working time to be seven and one-half hours per day, with one-half hour for dinner. Work to cease not later than 4 P. M. Saturday. Second and third shifts shall work seven and one-half hours also.

SEC. 2. Nine hours shall constitute a day's work, except on Saturday, when eight hours shall constitute a day's work. The starting and quitting time shall be left optional to the different Branches. Shops shall be considered started when filling up moulds.

SEC. 3. There shall be no Saturday night work.

SEC. 4. When a machine is not in perfect working order, the presser is to report the same promptly to the factory manager, and if the machine is not put in proper working order within sixty minutes after such

notification, the factory manager shall notify the shop to work the machine day work from the expiration of the hour, or lay off until the next regular time for starting work, said regular time for starting work to be the next half day. In no case shall more than one hour be taken in nine; men must come back for second turn.

SEC. 5. "Day Work" signifies that journeymen pressers and gatherers shall each receive at the rate of $4.37½ per day, but where an apprentice is employed as gatherer, the presser shall receive at the rate of $5.00 per day.

SEC. 6. The wages of each machine shop shall be equally divided between the presser and the gatherer, the amount per hundred shall be the list price plus 75%. Where but one person is employed on a machine, he shall receive net list price; also where an apprentice gatherer is employed the presser shall receive net list price.

SEC. 7 Journeymen pressers and gatherers are to report bad glass, faulty machines, moulds and tools to the factory foreman as soon as discovered.

SEC. 8. When new ware or new machines are brought into a factory, and they have been worked long enough to be in good working order, it shall be the duty of the manager and price list committee to arrange wages and put the machine or press on piece work.

SEC. 9. Fruit jars, or any other class of ware where prices have been set for piece work, with open and shut ring, and then a closed or screw off ring is substituted, said closed or screw off ring shall pay day work until prices have been set on same.

SEC. 10. All wares not specified in the list shall be rated at the same price and subject to the same rules in regard to shape, weight, capacity, height and opening, as those specified in the list which they most resemble.

SEC. 11. All necessary facilities shall be furnished by the firm within sixty minutes after notification. Failing to do this at the expiration of the said sixty minutes, the manager shall instruct the shop to work turn work, or lay off until the next regular time for starting work, said regular time for starting work to be the next half day.

SEC. 12. Journeymen pressers and gatherers are to receive no less than $20 per week in cash, as market money, providing same is due, and the second pay day in each month shall be designated as the day to receive extra money, which all manufacturers must pay when due. All settlements shall be made in cash, and there shall be no deductions for private accounts or bills against members.

SEC. 13. Each firm shall make a cash settlement within two weeks after the fire goes out; there must be a full settlement of all moneys due, in cash, not later than September 1st of each year.

SEC. 14. We will allow one apprentice to every ten and three-fifths (3/5) of ten journeymen steadily employed by one firm. This rule shall not be so construed as to debar any firm from taking one apprentice who shall have six journeymen at work.

SEC. 15. No one shall be considered an apprentice unless he be given a place to gather, but it is under-

stood that apprentices are allowed to gather for an automatic machine at 10% less than presser's net wages. or at the rate of $5.00 per day for day work less 10%.

SEC. 16. Apprenticees shall be required to serve three years to the firm at 10% less than net list price, said net list price being 25% less than pressers' net list price, or day work at the rate of $3.75 per day less 10%, said 10% to be the property of the firm. This rule not to apply to lids, stoppers, etc.

SEC. 17. Firms who, from any cause, reduce the number of their journeymen, must also reduce the number of their apprentices, in the proportion to the journeymen employed at the time of reducing their working force, so that they at all timese shall be within the requirements of the law.

Example: If the proportion was one (1) apprentice to three (3) journeymen before reducing their working force, the reduction would be one (1) apprentice to three (2) journeymen.

SEC. 18. Firms starting their factories not later than March 1, 1912, shall be allowed to take their apprentices at any time during the blast, but their quota shall be based upon the number of journeymen in their employ not later than March 1, 1912. Firms or furnaces starting after that date, shall not be allowed to take any.

SEC. 19. If from any cause, an apprentice leaves the trade, he cannot be duplicated, but should he die during the first year of his apprenticeship, the firm may duplicate him during that season only.

SEC. 20. When an apprentice is put on a shop in the machine department, the presser shall receive day work for the first week.

SEC 21. When a member is required to cut off his glass with foot power, or gather for an automatic machine that requires no presser, said member shall receive the net pressing list, as printed in the machine price-list.

SEC. 22. When three journeymen are employed on a shop, the wages shall be divided equally.

SEC. 23. When an automatic cut-off is put on a machine employing one or more gatherers, until a price is mutually agreed upon between workmen and employer, the employer shall pay $5.00 per day each.

SEC. 24. Any member holding a regular place, and desiring to quit work, must give notice to the manufacturer, and then work five (5) consecutive days afterward in his regular place. Manufacturers desiring to discharge members must give them the same notice with the same rights. **The member or firm giving or receiving such notice shall immediately notify the Factory Committee of the same,** and under no consideration shall a card be granted, or a settlement made during the season unless this has been fully complied with. This rule shall not be so construed as to prevent the manufacturer from discharging a member on sight for drunkenness or the violation of this rule.

SEC. 25. Pressers are allowed the privilege of changing off with gatherers, in order to teach them how to press and become acquainted witth that line of work;

except in the case of apprentices who have served less than eighteen (18) months.

SEC. 26. The following named holidays shall be observed in the United States: Labor Day and night, Thanksgiving Day and night, Christmas Eve, day and night; Decoration Day and night; Fourth of July day and night. In Canada: Victoria Day and night; or the day set apart when any of the above named holidays fall on Sunday.

SEC. 27. Imperfect or bad ware condemned by the firm shall be set aside for inspection upon request of the presser. The ware that is set aside by the firm as bad ware shall be inspected and broken by the workmen within twelve hours from the time it is set aside. Failing to do this, the firm shall be at liberty to break the same.

SEC. 28. Members shall not wait longer than one and one-half hours on bad glass. It shall be understood that the time of one and one-half hours means that the members during that time shall use every reasonable effort to get glass in proper condition; but where the manager or firm requests them to work said glass previous to the expiration of said time by paying them for ware properly made from said glass, they shall be permitted to do so.

SEC. 29. When a machine is being operated on two or more kinds of bottles or jars, and the weights or prices are different, said shops shall receive pay for the highest priced bottle or jar.

SEC. 30. The ware is to be sorted by competent work-

men employed by the manufacturer, and the workmen are to receive pay for all good ware selected. All wares must be accredited as soon as sorted.

SEC. 31. The right of the manufacturer to hire and discharge employes is acknowledged, and it is understood that when workmen are to be hired, they shall be members of the Glass Bottle Blowers' Association.

SEC. 32. On a machine where cut-offs are used, and but one operator is employed, three operators may be employed to operate two such machines. Two-thirds of the product of each machine shall go to the regular operators. One-third of the product of each machine shall go to the third operator. This shall not be used where there is a three-shift system. Day work shall be at the rate of $5.00 per day for each machine.

SEC. 33. Members are permitted to enter the packing room before starting and after stopping work, on the day or night turn, or during the regular stopping times, for the purpose of inspecting or looking after ware made by their shops, but must not remain in the packing room after such inspection has been made.

SEC. 34. When a blowing apprentice is put to work on a machine, he shall receive apprentice's wages according to machine rules.

SEC. 35. When three men are employed on two semi-automatic machines, two men shall not be allowed to work the machines when there is a member idle competent to fill the place.

SEC. 36. No glass shall be made during the first two weeks in August, 1912.

Those representing the Manufacturers:

James Morrison Tarentum, Pa., *Chairman.*
